Presidents' Message

Dear Members, Donors and Well wishers,

On 11th February, 2024, Arya Vysya families observed the Atmahuti Day with devotion and reverence. Vasavi mata has sacrificed her life for the future of Vysya families. She is always revered for her benevolence towards the entire humanity. She is the utmost and highest example that humanity to follow and imbibe the finest quality exhibited and the path laid. As the crown of creation, we have been blessed with the most sophisticated and unique gift of a human form. We have the power of choice, the ability to decide what we think, feel and do at any given moment. This is a potent tool that enables us to shape our destiny and happiness. The first step towards making good choices is to discover our purpose in life – the meaning and significance of our existence. However, one should be aware of the dangers of making bad choices influenced by our ego, attachments, desires, fears, doubts and ignorance. Choices based on these factors create bondage, suffering and misery for ourselves and others.

The power of choice is the power of God. It is the power of creation. It is the power of Love. It is the power of freedom. It is the power of Joy. It is the power within each of us. Therefore the choice lies within us. Be good and make good choice.

One of our senior member has suggested that we have to inscribe the names of donors who contribute liberally and significantly towards the hostel fund at the new premises planned for. The suggestion is apt for consideration and implementation. The name of the donors who contribute more than Rupees One lakh will be inscribed and placed appropriately in the new premises. Many of our members, donors and Welwishers have volunteered and coming forward to donate. Let this tribe increase. I once again request for generous contributions.

A Technical Seminar is arranged to be held on 17th March, 2024, on the significance of Artificial Intelligence and its impact on the general public and startup opportunities in current scenario. Eminent speakers have agreed to participate and impart their knowledge and experience. I urge upon our young engineers, professionals and entrepreneurs to make use of this opportunity and register their names and participate.

With Hearty Greetings,

T.K. THIMMARAJA SETTY
